What are the plans concerning e164.arpa in your country? Is there a "roadmap" for starting an ENUM trial (or commercial service) under e164.arpa?

E.164 numbers under the 852 country code are administered by OFCA under the HK Numbering Plan. There is no organisations in Hong Kong interested to handle this high level infrastructure and facilities, and currently there is no roadmap for starting an ENUM trial under e164.arpa.
