REASON

What is the main reason for joining NRENum.net?

**Initially for trial purpose with a view to gain an understanding and practical knowledge of the system works. We will decide how to roll this trial into a service environment at the end trial based on the knowledge gained.**

\_\_\_\_\_

What are the plans concerning e164.arpa in your country? Is there a "roadmap" for starting an ENUM

trial (or commercial service) under e164.arpa?

**We are currently using Centralised GDS structure for national and international directory lookup and call establishment. We will decide if to migrate direct to nrenum.net after the initial trial.**

I/We hereby declare that all information provided above are correct. We further declare that we have read the trial charter, and that we are going to comply with it.
